

NIO Requests

5 February 1975

MEMORANDUM FOR: Deputy Director for Intelligence
Associate Deputy Director for Intelligence

SUBJECT : Recent Requests from NIO's

1. [REDACTED] recently suggested to [REDACTED] that we consider updating the piece that [REDACTED] completed last September on "The Soviet Image of the U.S." It is [REDACTED] view that it would be timely to have this shortly before Mr. Brezhnev's visit to the United States, assuming that this comes off. This, of course, would not be a major research project and, I would think, not exceed the previous paper which was nine pages long including three pages of graphs. We are tentatively scheduling to have this ready in May.

2. [REDACTED] reported recently that after the DCI noted the items in the NID on the Chinese-supported Communist insurgency in northern Burma and on the Mizo and Naga insurgencies in India, he suggested that it was time to take another look at [REDACTED] insurgencies all across South Asia and Southeast Asia. [REDACTED] in our Asian Communist Staff, is well along on a paper on China and South Asia. The Mizo and Naga insurgencies will be covered therein. When that is out of the way (hopefully by the end of March), he will turn his attention to a survey of [REDACTED] insurgencies, a subject which we had already tentatively scheduled.

[REDACTED]
LEWIS J. LAPHAM
Director, Political Research
